passwd

Extension Upgrade guide

Passwd Extension Upgrade Guide

We have improved the authentication flow in the Passwd extension, which now enables support for our upcoming Firefox extension as well as a mobile app we are working on. To ensure continued and expanded access, you need to take a quick action in your Google Cloud Platform (GCP).

What You Need to Do

To complete this update you must be the Google Cloud Console administrator.

1. Sign in to Google Cloud Console
2. Select the passwd project.
3. Navigate to API & Services > Credentials. Under "OAuth 2.0 Client IDs," locate the credentials associated with Passwd.

Credentials   ＋ CREATE CREDENTIALS   🗑 DELETE   ↰ RESTORE DELETED CREDENTIALS

Create credentials to access your enabled APIs. Learn more ⧉

API Keys

	Name	Creation date ↓
☐	✅ Passwd Stackdriver	Nov 28, 2024

OAuth 2.0 Client IDs

	Name	Creation date ↓
☐	passwd-	Nov 28, 2024

4. Click on it and add the new OAuth redirect URIs. In the Authorized redirect URIs section, add the following URLs:
   - https://ppjccohoifnhjjbedgclmljlglnaojeb.chromiumapp.org/oauth/redirect
   - https://89c7154e2e0954b4f637707f512a3b52541c0f3e.extensions.allizom.org/oauth/redirect

← **Client ID for Web application**   🗑 DELETE

Name *
passwd-████ ████

The name of your OAuth 2.0 client. This name is only used to identify the client in the console and will not be shown to end users.

ⓘ The domains of the URIs you add below will be automatically added to your OAuth consent screen as authorized domains ↗.

Authorized JavaScript origins ❓

For use with requests from a browser

URIs 1 *
https://████ .passwd.team

➕ ADD URI

Authorized redirect URIs ❓

For use with requests from a web server

URIs 1 *
https://████ .passwd.team/oauth/redirect

➕ ADD URI

Note: It may take 5 minutes to a few hours for settings to take effect

SAVE   CANCEL

5. Click "Save" and that's it! Your authentication settings are now updated. You can now download the Firefox extension.

Alternative Option: Let Us Do It for You

If you prefer, you can invite our team to handle this update for you:

1. Go to IAM & Admin > IAM in your Google Cloud Console.
2. Click "Add" and enter *install@passwd.team* as a new member.
3. Assign the "Editor" role (or a similar role that allows credential management).
4. Click "Save."
5. Let us know via Tidio chat that you've added us.

Once we receive your message, we'll take care of the necessary changes on your behalf.

By completing this step, you'll ensure seamless authentication in Chrome, Firefox, and our upcoming mobile app! 🚀

If you have any questions, feel free to reach out via Tidio chat.
